Corrected Gaussian: Milky Way and Cassini require separated widths
Canonical
No overlap
MW upper ≈ 0.312
Cassini ≥ 0.5156
Alternate
No overlap
MW upper ≈ 0.461
Cassini ≥ 0.5928

Common Gaussian width fraction ε
Refined MW passing examples
Mapped MW upper transition
Numerical Cassini passing branch
Lower MW windows are not fully mapped. Endpoint spread is numerical; no common window was found.
